French Minister Ordered To Remain Firm Toward Russia CHINA CIVIL WAR THOUGHT NEAR END

General Fu's Forces in Control of Peking; U. S. Warships Due Today

PEKING, May 5.—China's civil war is believed today to be at an end. General Wu Pei Fu, commander of the military forces of the central provinces, controls Peking. His adversary, General Chang Tso Lin, military governor of Manchuria, is in flight towards Mukden and his army is shattered. General Wu is head of the Chihli party.

The Peking-Tientsin railroad which was menaced by the northern fighting, is now clear as far as Laofu.

American marines have been dispatched towards Tung Chow, where Japanese troops are on guard.

If another battle is fought it probably will be near Tientsin. Stragglers report that there is little likelihood of another engagement in the vicinity of this city.

Heavy firing continues in the sector of Machang.

Foreign observers upon the scene of the fighting report that they have found much abandoned war materials, including faulty guns and munitions.

Peking is prepared for a new political regime.

WASHINGTON, May 5.—The flagship Huron of the Asiatic fleet is due to arrive in Tientsin, China, today, according to advices to the state department from Minister Schurman at Peking.

PITTSBURGHERS SAY ELYRIA HAD BEST DISPLAYS

The Pittsburgh Chamber of Commerce came, they saw, and went away convinced that they had visited one of the finest cities in the middle west. To a man they were enthusiastic over their reception here.

One man exclaimed: "I have been on every trip made by the Chamber but in all my experience this city has outdone them all. Just to think you got up this industrial show for us, so that we could see what an enterprising place you live in. It's remarkable, and I, for one, am decidedly pleased."

Another man said, "The exhibit at the Elk's hall was a fine piece of work. I got more information as to what is being done in Elyria, than I could have got in three days visiting at the factories themselves."

The show last evening was visited by thousands of people. In fact the hall was much too small to accommodate the crowd, and many were turned away. The manufacturers were commended for their enterprise and the hope expressed that a similar show might be an annual event.

The visitors were presented with golf balls by the Worthington Ball Co.; ice cream by the Richmond Ice Cream Co.; rubber balls by I. T. S. Co.; rubber balloons by the Consolidated Rubber Co. At night the Atlas Awning Co. gave away a lawn tent that was awarded to H. A. Decker, R. F. D. 4.

Elyria Foundry Co. had a cast-iron on display in a weight guessing contest over 300 people guessed from 21 1/2 pounds to ten tons. Mrs. C. B. Simkins of 329 12th St., guessed rightly at 103 pounds.

APPEALS COURT GIVES FOUR DECISIONS

The circuit court met today to consider two cases that presiding judge, C. G. Washburn, was excused from hearing and his place was taken by Judge Patterson of Ashland.

The cases considered were the appeal case of the National Tube Co. from the judgment entered against it in favor of Jacob Muzychak and the appeal of the South Shore Land Co. in the case brought by George Crebore.

The court also gave its decision in several cases that were recently heard.

In the appeal of Louise Hubler against Dr. William E. Wheatley, of Lorain, the decision of the lower court was sustained in favor of the defendant.

In the case of Jane Archer Snyder against George W. Morris, administrator of the court reversed the decision of the lower court and ordered that it be re-tried.

In the case of the Harper & Kerschman Shoe Co. vs. the S. & B. Shoe Co., the court rendered a verdict in favor of J. Brenner.

In the case of George Decker vs. Martin Lauer, the court decided that if the parties agreed that the verdict against Lauer should be \$650 instead of \$1,000, the judgment of the lower court might stand. Otherwise the case would be reversed.

ELECTROCUTE 2 STATE SLAYERS

COLUMBUS, May 5.—Fervently religious, two murderers, George Bush, 41, Youngstown, and John Valden, 26, Columbus, both colored, paid the death penalty early this morning in the electric chair at the penitentiary.

It was necessary to apply the electricity three times to Bush's body before it was officially pronounced dead at 1:13 a. m. One application was sufficient for Valden who died at 1:22 o'clock.

Bush killed Lucius Lee, Youngstown negro, who had accused Bush of stealing. Valden murdered Charles D. Baker, Columbus insurance agent.

Just before their executions, both condemned men accepted religion.

CHICAGO, May 5.—The McCormick family barricaded itself behind forbiddingly closed doors today and refused to discuss three romances said to be budding within the family circle.

Mrs. Edith Rockefeller McCormick, daughter of John D. Rockefeller and divorced wife of Harold F. McCormick, millionaire farm implement maker, refused to dignify by a denial reports that she is to wed Edward Krenn, a Swiss architect now in Chicago. Thru her secretary she sent word that she "did not care what the newspapers print about the matter."

Krenn rebuffed questioners with the declaration that it is "too personal a matter to discuss."

Harold F. McCormick, likewise maintained silence in regard to the reports that he would wed Mme.

Mistake Wild Parsnips For Celery, Seven In Family Die

L'ORIGNAL, Ontario, May 5.—Seven members of a family of nine died here today in horrible agony from eating wild parsnips, in the belief that they were a species of celery.

Napoleon Lecroix, brought the parsnips, known here as "les carottes moreau" home after discovering them in the woods. His wife cooked them and the pair were dead fifteen minutes later.

Lecroix's father, a man of seventy, had eaten only a teaspoonful and he lived for two hours, witnessing the agonizing sight of his son, daughter-in-law and grand children staggering to their deaths and writhing in agony on the ground.

Neighbors who saw Mrs. Lecroix stagger into the yard summoned a

doctor. Two children followed. Then the father tried to help them, but he became frantic with pain and death soon ended his agony. His wife died at almost the same time.

The doctor arriving found that the two children had stumbled several hundred feet along the road, then collapsed. They were taken into a store and died.

Two other children, Marie and Hector, were found by the physician writhing on the floor of the home in death agony. Joseph Lecroix, the grand father, lingered, fighting the poison for two hours. The baby of the family did not partake of the dish, but another child slightly older did, and is in a precarious condition.

SAYS MINERS THOUGHT THEY WERE STARTING A NATIONAL REVOLUTION

CHARLESTOWN, W. Va., May 5.—Warring miners who took part in the armed march against state troops and deputy sheriffs in Logan county W. Virginia, last summer, declared they were starting a "nation wide industrial revolution," Dr. L. F. Milliken, of Philadelphia, who was living in Blair during the mine war, testified today at the treason trial of young "Bill" Blizzard, alleged generalissimo of the miners' army.

Dr. Milliken also declared that the miners actually menaced Major Charles F. Thompson, U. S. A., when he served President Harding's proclamation demanding that they disarm.

DRUNKEN AUTO DRIVER FINED AFTER CRASH

Matt Gardner Placed Under Arrest—John Minnich Regains Consciousness

Two men were injured at 5:30 last night, when Matt Gardner of LaGrange, drove his automobile into an electric light pole at the corner of Clark and East Bridge streets. John Minnich, riding with Gardner was thrown through the windshield by the impact, and then bounded back onto the pavement. Gardner was thoroughly shaken up, but was not seriously hurt.

Minnich sustained severe cuts about the head and neck and was taken to the hospital by the Walker Auto Repair Co. car. The police were called and arrested Gardner on a charge of driving his auto while intoxicated. A small empty whisky bottle in the car showed where the supply came from.

Later Gardner was taken to the hospital by his physician but it was fortunate he was not much hurt.

This morning in police court he pleaded guilty and was fined \$25 and costs which was paid.

Minnich was unconscious all night but recovered this morning, and is reported as in a fair way to be out again soon.

The machine was being driven so rapidly that when it hit the pole it broke it off ten feet from the ground. That both men were not killed is considered a miracle by those who saw the accident.

NAB TWO WHITE MEN AND NEGRO AS GIRL SLAYER

WACO, Texas, May 5.—Two white men and a negro were arrested today in connection with the brutal slaying of Eula Ousley, 17, whose body was found with the throat cut, the skull crushed and mutilated by thirty stab wounds eight miles west of Mexia late yesterday. Above, former Senator Albert J. Beveridge; below, Samuel Ralston, Democratic nominee for U. S. senator.

The outcome of the senatorial primary fight in Indiana has served to blanket Washington in gloom. Administration opponents profess to see in the defeat of Senator Harry S. New, friend and defender of President Harding, by former Senator Albert J. Beveridge, an indictment of the Harding administration and an omen of victory for themselves in the fall elections. Samuel Ralston was given the Democratic nomination and will oppose Beveridge in November.

MAN WHO SLAYS ASSAULTER OF MOTHER, FREED

NEW YORK, May 5.—"A mother always worries. I shall always worry because Carl shot a man, but the jury was so good to send him back to me."

Thus did Mrs. Margaret Veith today voice her eternal sorrow over the fact that her son, Carl Veith, shot William Doyle after Doyle had attacked her and taken \$4 from her home and also her thanks that a jury of 12 men recognized a new "unwritten law" and acquitted him on the act which assistant district attorney Brothers characterized as "cold blooded and premeditated murder."

Doyle, whom both Veith and his mother had befriended, attacked Mrs. Veith and beat her on April 8. Veith, filled with love for "his only sweetheart," sought Doyle for hours, found him and shot and killed him with an old Civil war pistol.

"Slim's" gang, which had plotted to effect his release from the workhouse, was entirely wiped out by the Canton police, deputy sheriffs and a posse of citizens who joined the battle following the kidnapping of Motorcycle Officer John Wise of the Canton police force by the gang. The battle took place in a woods five miles north of Canton late yesterday afternoon after three automobiles loaded with Canton police and deputy sheriffs surrounded the gang who were carrying away Wise with them.

KILL SEVEN IN IRELAND BY MISTAKE

DUBLIN, May 5.—Disorders died down in Ireland today as a result of the truce between the free states and the republicans, but a tense situation exists. It is feared fighting will continue despite the armistice.

Seven persons—four republicans and three free states—were killed in a battle at Newton Cunningham in consequence of a mistake. The free states, knowing that a truce had been negotiated, halted a party of republicans to appraise them of the fact. The republicans, not knowing of the armistice, opened fire. The free states returned the fire and a pitched battle developed. Several were wounded in addition to the killed.

Advices from Belfast said that regulars and irregulars are facing each other along the Ulster frontier and it is evident that it would require little effort to start a battle. Some disorders have taken place along the northern boundary, but responsible leaders of both factions are attempting to hold their men in line.

The armistice committee of the Dail Eireann is expected to make a report on proposals for army unification tonight. It is proposed to merge the rival factions into one force if it can be done.

PLENTY GREEN STUFF, PRICES REMAIN SAME

Warm weather has brought more green stuff into the market, but the prices are no lower. In fact there is but one change in the market price over the preceding week. However the offerings are much more plentiful. Green onions are in the market in profusion and are of fine quality. Cauliflower is also in evidence, the new crop coming in from the south. Hot house tomatoes are slightly lower and are of good grade. Strawberries are plentiful and are firm at 30 cents per quart. The price of fish and meats remain the same as the previous week.

Eggs are selling at 30 cents in all markets but one, and they make a price of strictly fresh at 27c.

SEE END SOON IN HARD COAL FIELD STRIKE

WASHINGTON, May 5.—The coal strike in the anthracite fields will be settled within a month, according to predictions in reliable labor circles here today.

The miners in the anthracite fields may even be willing to accept a slight reduction if they are sure the checkoff and other points at issue, it is said.

The big fight of the miners is with the bituminous operators, not the anthracite, it was pointed out today.

The union miners are standing pat and will stick it out all summer, if necessary according to labor leaders.

There is defection, however, in the ranks of non-union miners who joined the strike in West Virginia, it was learned. They were forced to return to work, it is said, because of lack of funds, the United Mine Workers of America being unable to pay strike benefits.

The Plan That Katherine's Work Made Possible.

THE tension, the near-agitation which was in Lillian's manner as she took Katherine's hastily-scribbled notes in her hands told us of the importance she attached to these fragments of apparent nonsense which our little friend had fished down from the conversation of Anton and Joe.

She walked swiftly to the window with them, drew a chair to the light and began to examine them closely, patiently forgetting time, our presence, everything. In the curious fascination the notes had for her, Katherine and I sat silently watching her, feeling a rising tide of excitement in our own veins, so plainly did we see the vital importance which Lillian attached to the scribbled words and figures.

Through the open window the occasional whirr of a motor car, the clatter of a farm team, the voices of school children punctuated the peace of the sleepy village. As far as outward seeming went we were leagues away from ugliness, sordidness, crime, and yet I knew, without understanding what it was all about that Lillian held in her hands the symbols of a monstrous evil, a repulsive something which was slowly crawling underneath the surface of our national life, waiting its chance to attempt the closing of its coils.

I shivered involuntarily, glanced at Katherine, and saw that her face was pallid, as I guessed was my own. And then Lillian rose, stuffed the scribbled papers into her bag, moved swiftly lightly on the smaller "woman's" shoulder.

"You've done something for your country this day, girl," she said, and though her voice was so low that it could not have been heard outside the room, there was that in its timbre which rang inspiring in our ears. "I'm only to get these into the hands of the only man who can handle them. Have you anything else to tell us?"

"Get busy, Madge."

"Nothing, except that Anton told Joe to watch for a man with a motor car who would pretend to be his cousin, and who would come for him when he was ready to leave the hospital. He gave Joe this cousin's address, commanded Joe to write when he was permitted to leave, and also asked if he thought the hospital authorities would let him leave more quickly if he took his nurse along. There is evidently no lack of money in the people back of Joe and Anton."

"No, there isn't," Lillian commented dryly. "What did Joe answer?"

Katherine laughed with a trace of embarrassment.

"Joe declared emphatically that he wanted me to go along when he left the hospital, that he wouldn't get well if I didn't, that all other nurses were several different varieties of monkeys, and that I was 'run peach.' I told you I had made a conquest."

"That's fine in one way," Lillian answered gravely, "and bad in another. However, I think we may guarantee to keep a watch on Mr. Joe after you leave the hospital with him. It's going to be a risky business going into the house where I think I shall have to wait you, but there'll be at least one other government operative in the house, and others outside, so I think we'll be able to reduce that risk to a minimum."

"I fancy you know I'm rather used to 'risk' of various kinds," Katherine said quietly.

"Do I know it?" Lillian returned emphatically. "But that's no reason why we shouldn't safeguard you in every way possible, and we're going to. Were you able to write down the address of that phony cousin?"

"A Girl in a Thousand."

"No, but I did a strenuous imitation of Madge and remembered it," Katherine replied. "My memory isn't so bad on a little sprint. It's on the century runs where Madge shines that I puncture a tire. Here it is."

She repeated a name and the address of a New Jersey town distinctly, as Lillian nodded to me.

"Get busy, Madge," she said, and accordingly concentrated on what Katherine was repeating. Soon had the name and address filed away securely in my memory, and knew that whenever they were needed I could repeat them accurately.

"That's all I have to tell you," Katherine was saying as I finished, and Lillian moved decisively toward the door as she spoke.

"Then Madge and I will lose no time getting home," she said. "You must have Dr. Pettit take you back to the hospital on the double-quick, also. And I don't need to tell you to keep a sharp lookout and to let me know at once whatever you hear. You're a girl in a thousand, Katherine Bickett, and I don't care who hears me telling you."

I knew that the half-mocking words were praise indeed from Lillian, saw Katherine's face flush with pleasure as she listened. And then, Lillian, drawing me with her, hurried through the door and down the steps to the car.

Rise on her, Madge," she commanded. "I'm mighty anxious to get home and have another little confab with dear Katie."

The County Agent Has Won A Permanent Place in Rural Life

After ten years of experimentation and development under the direction of the Department of Agriculture, county agent work has proved itself an indispensable factor in agricultural communities in the Northern and Western states. It has awakened the farmers' economic instincts and is helping him stand on an equality with other business interests. It has brought out a reorganization of social conditions in rural districts which makes country living more satisfactory and has brought to the country boy and girl a new respect for the farm and a new and better notion of country life.

The specific activities of county agents in Northern and Western states with respect to soil fertility, seed improvements, pest and insect control, fruit, livestock management, boys and girls clubs, farm home problems, etc., fully and interestingly described in Department Circular 179, which may be had on application to the Department of Agriculture.

History of County Agent

The circular also gives brief history of the county agent work in its inception in 1911, in some county, New York. By the end of June, 1913, about one hundred of the agents were at work in 19 states. The passage of the Agricultural Extension act in May, 1914, and later the food products emergency of the World war, led to the rapid expansion of the county agent force, which now numbers 1166 agents in the 1600 agricultural counties of 33 Northern and Western states. Iowa and Minnesota are the only states which have a complete quota of county agents.

It is interesting to note that the early efforts of county agents were poorly received by county communities and in very many cases were openly resented by farmers. The changed attitude of agricultural communities in regard to the county agent is one of the most notable triumphs of the work and is the best possible proof of its value and necessity.

County agents' attitude toward such economic problems as co-operation, purchasing of farm supplies and marketing of farm products has resulted in the formulation of a national policy. The county agent today helps determine what crops should be grown, he advises how to grow them efficiently and how to market them profitably. The same is true in connection with his work in the live-stock industry.

Helps the Farmer Help Himself

The county agent's first duty is to help the farmer help himself. One of the outstanding developments in connection with the county agent work has been the increased emphasis placed on the appointment of community project leaders and through them the development of programs of extension work in agriculture and home economics. Whether the need of a particular community be drain age of wet lands, stump blasting, corn wheat or other crop work, improvement of seed potatoes, eradication of prairie dogs or grasshoppers, pruning and spraying of fruit trees, a "better sires" or tuberculosis test campaign, farm accounts, boys and girls clubs, or other problems, the method of approaching the work is about the same.

The aid of extension experts from state colleges of agriculture and the United States Department of Agriculture is frequently sought since farmers are insisting on a high standard of qualifications in those from whom they expect to learn newer and better methods of farming.

The circular gives many tables and figures in connection with its story of the county agent work in the Northern and Western states.

Save Ice! Save Foods! Keep your food wholesome - guard the health of your family - The Automatic

Refrigerators are not bought these days as they used to be, when all we wanted to know was whether an "ice box" was "big enough" to hold all the things we wished to chuck into it. Today we are modern. We want to know if a refrigerator is or is NOT an "ice-eater," we want to know if our foods will keep COLD, sweet and wholesome; we want to know that we are protecting the HEALTH of the entire family, we want to know that we are getting not only the most scientifically-built but the BEST-built, and the MOST-ECONOMICAL refrigerator on the market. Also we want a "good-looking" refrigerator.

We have the refrigerator that meets all of these requirements—and we invite you to come in and see for yourself. You'll be especially interested, we believe, in the AUTOMATIC WATER COOLING SYSTEM—something that will be in every home SOME day, and that is only to be had in the Automatic while the patents are in force. We have sold the Automatic in Florida for 15 years. Every claim we make for it can be absolutely backed up. Come in and see for yourself.

At The Theaters

ry Semon in "The Show" an extra good picture.

American—"God's Country and the Law." The great outdoors of the west is called God's country, and this picture shows it in its most realistic style. There are many good points that appeal to those who witness it. Also a mermaid comedy that is a scream.

Strand—"Remorseless Love." Still draws at this theater, for it is a picture worth seeing. It also treats of the strong love and emotions of every day life that brings the lesson taught home to the observer.

Dreamland—"The Girl With the Jazz Heart." Just jazes into your good graces, and you will enjoy Madge Kennedy's interpretation of the part. There is plenty of humor, swift action and handsome costumes to be seen.

Grand—"The Bride's Play." Something old and something new. Something borrowed and something blue. She married one of two men, but she had a hard time choosing. An orange blossom romance of love and life's springtime. Also a good comedy, and the world's weekly news.

DINNER STORIES

A little fellow sat on a doorstep crying bitterly. Presently a sympathetic old lady came along.

"What's the matter, little boy?" she asked.

"Got my new pants covered with dust," sobbed the boy.

"But they're clean now, dear," continued the woman.

"I know they are," wailed the lad.

"Then why do you still cry, child?"

"Cos mother wouldn't let me take 'em off while she beat the dust out."

A district school teacher had great difficulty in making her pupils say "put" instead of "putten." During a grammar lesson she sent one of the pupils to the board to write a sentence. The boy made the same mistake. The teacher called on a small girl for corrections.

"Please, mum, he went and putten 'putten' where he should have putten 'put'."

The teacher wanted some plans in order to give an object lesson, and calling one of the small boys, she gave him ten cents and dispatched him to the fruit stand down on the corner.

"Before you buy the plums, Willie," she cautioned, "you had better pinch one or two to make sure they are ripe."

Little Willie flitted away. Soon he came back and smilingly put the bag on the teacher's desk.

"Oh, thank you, Willie!" said the teacher, taking up the bag. "Did you pinch one or two, as I told you to do?"

"Did I? I pinched the whole bagful, and here's your ten cents!"

At the end of each ribbon, enclosed in the bell, was a lovely card, the center of which held a tiny card and in this unique manner the hostess announced her engagement.

Food Dangers of Early Spring

SPRING is a treacherous season. The weather is extremely variable. Warm days follow cold days abruptly. A variation of 20° is often enough to start decay in food, to incubate millions of germs.

It is false economy to rely on weather and spoil food. Food is expensive; ice costs only a few cents a day. Before the weather gets hot, ice melts slowly; one good size cake will keep the ice box cold for days.

Besides, food kept with ice is crisper, fresher-flavored, more nutritious.

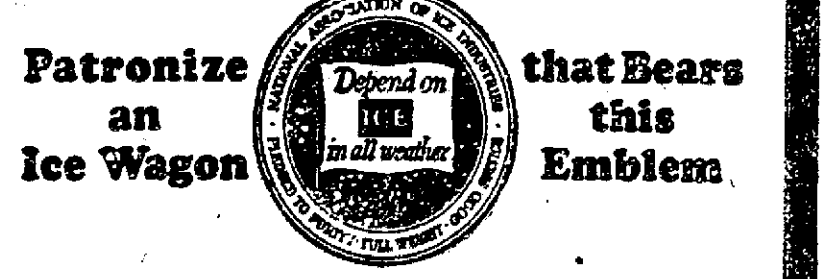

Read what Dr. Evans, the well-known health authority in Chicago, says:

"Food keeps very well when the temperature of the food compartment is 45°. When the temperature is 60°, milk spoils before the bottle is emptied."

How often the temperature rises above 60° on a mild spring day.

The well-informed housewife takes ice the year 'round. She would not risk the dangers of an outdoor window box. That exposes food to germ-laden air, and to alternate warming and cooling—the worst condition for keeping food wholesome.

Start now to protect your food against sudden spoilage and loss of flavor by taking ice regularly.

It is your protection. It means that your ice dealer is a member in good standing of the National Association of Ice Industries, and is pledged to give you

Ice Which Is Absolutely Pure Correct Weight Careful and Courteous Service

The dealer whose wagons carry the Association emblem is a responsible business man, permanently located in your community, with capital invested in the ice business. Suggestions from ice users for improving the service of any member will be welcomed at headquarters.

PHI BETA KAPPA PICKS PROF. CLARENCE WARD AS ITS PRESIDENT

OBERLIN, May 5.—The annual meeting of the Phi Beta Kappa chapter of Oberlin College was held in the Park hotel, Thursday evening, May 4. The members of the chapter met in the parlor at 5:30 o'clock for the formal admission of those recently elected.

After the initiation a three-course dinner was served to sixty-three faculty members and initiates.

Following the dinner, Prof. Rogers welcomed the new members of the chapter and then presented Harold Glenn Dietrich, who responded for the new members. The next speaker was Prof. Kemper Fullerton, Princeton, '88, who spoke on the significance of true scholarship as opposed to thoughtless action.

The meeting was closed by an election of officers for the coming year. Prof. Clarence Ward as president; Mrs. Arthur Heacock, a vice president; and Prof. K. L. Cowdery, re-elected secretary and treasurer.

MAY HIRE FULL TIME WORKER FOR LORAIN CO. SUNDAY SCHOOLS

OBERLIN, May 5.—In the business session of the Lorain County Sunday School association held here Wednesday, officers were elected for the coming year. They are Rev. F. W. Smith, Oberlin, president; Rev. P. E. Eastman, Amherst, vice president; Peter Becker, Amherst, secretary; and Dean Burns, Elyria, treasurer.

The convention went on record that it will make an attempt during the coming year to find out the sentiment of the church schools of the county as to their attitude toward joining with Medina, Huron and Erie counties in hiring a full time Sunday school worker. An effort will be made by the new officers to get all information possible on this matter the coming year, plan a financing scheme and present definite plans at next year's convention. "It will take that long," says E. P. Postle, retiring president of the organization, "to gain all the needed information, making plans for such a project and influencing the other counties to consider the matter."

M. L. BURTON WILL GIVE COMMENCEMENT TALK

OBERLIN, May 5.—Dr. Marion LeRoy Burton, president of the University of Michigan, will deliver the commencement address for the class of 1922.

Secret of A Good Disposition

A woman who carefully safeguards her health benefits her disposition. She will be happy and attractive to all. The world unfortunately is filled with sweet women who are unhappy because they are held back from usefulness by troubles so common among them. Prettiness and nervousness rapidly destroys good dispositions. Sickly, all-orn-out women cannot make happy homes.

Lydia E. Pinkham's Vegetable Compound is a safeguard of women's health. This is clearly proven by the many letters we are continually publishing in this paper, from women who have been restored to health and happiness by its use after years of suffering. Why don't you try it?

WARNS AGAINST SPRAYING TREES WHILE IN BLOOM

C. E. Hurlbut, president of the Lorain County Bee Keepers' association, calls the attention of fruit growers to the danger to bees of spraying fruit trees while in bloom with arsenate of lead solution. It destroys the bees and does damage to the owner, who will not receive as good a crop, especially of apples.

Trees should be sprayed after the trees are out of bloom. If the bees are poisoned they can not pollinize the trees and there will be that much less fruit, so the owner as well as the bees suffer loss.

Warnings have been issued by the state department of agriculture against this habit. Spraying is all right if done at the right time.

STUTZ

Efficiency That Can Be Acquired
Only by Inherent Perfection

The prowess of the Stutz—with the "D-H" Engine and Compensating Spring Suspension—is inherent. It is not acquired artificially by adding intricate auxiliaries to the fundamental power unit.

The Stutz is the first fine car to rely solely on the mature refinement of its basic design instead of multiplication of parts for its splendid versatility.

As a result, the Stutz, we believe, is more nearly 100% efficient throughout the entire range of motor car performance than any one car built today.

Its elements are the sort that can be acquired only as the result of inherent perfection of design.

No Disappointments

Millions of housewives use Calumet Baking Powder because of its dependability—because when they place their baking in the oven, they know it will "turn out" all right. They are confident of results because they know that no matter what they bake—pies, cakes, biscuits, muffins—the results will be the same—light, perfectly raised, wholesome foods.

CALUMET BAKING POWDER

never disappoints. Don't prepare bakings with expensive ingredients and then have them spoiled because of an inferior leavener.

Have the same assurance that the majority of other housewives have.

A pound can of Calumet contains full 16 ounces. Some baking powders come in 12 ounce instead of 16 ounce.

MAY HIRE FULL TIME WORKER FOR LORAIN CO. SUNDAY SCHOOLS

OBERLIN, May 5.—In the business session of the Lorain County Sunday School association held here Wednesday, officers were elected for the coming year. They are: Rev. F. W. Smith, Oberlin, president; Rev. F. E. Eastman, Amherst, vice president; Peter Becker, Amherst, secretary; and Dean Burns, Elyria, treasurer.

The convention went on record that it will make an attempt during the coming year to find out the sentiment of the church schools of the county as to their attitude toward joining with Medina, Huron and Erie counties in hiring a full time Sunday school worker. An effort will be made by the new officers to get all information possible on this matter the coming year, plan a financing scheme and present definite plans at next year's convention. "It will take that long," says E. P. Postie, retiring president of the organization. "To gain all the needed information, making plans for such a project, and influencing the other counties to consider the matter."

Secret of A Good Disposition

A woman who carefully safeguards her health benefits her disposition. She will be happy and attractive to all. The world unfortunately is filled with sweet women who are unhappy because they are held back from usefulness by troubles so common among them. Preeness and nervousness rapidly destroys good dispositions. Sickly, all-orn-out women cannot make happy homes.

Lydia E. Pinkham's Vegetable Compound is a safeguard of women's health. This is clearly proven by the many letters we are continually publishing in this paper, from women who have been restored to health and happiness by its use after years of suffering. Why don't you try it?

WARNS AGAINST SPRAYING TREES WHILE IN BLOOM

C. E. Hurlbut, president of the Lorain County Bee Keepers' association, calls the attention of fruit growers to the danger to bees of spraying fruit trees while in bloom with arsenate of lead solution. It destroys the bees and does damage to the owner, who will not receive as good a crop, especially of apples.

Trees should be sprayed after the trees are out of bloom. If the bees are poisoned they can not pollinize the trees and there will be that much less fruit, so the owner as well as the bees suffer loss.

Warnings have been issued by the state department of agriculture against this habit. Spraying is all right if done at the right time.

STUTZ

Efficiency That Can Be Acquired
Only by Inherent Perfection

The prowess of the Stutz—with the "D-H" Engine and Compensating Spring Suspension—is inherent. It is not acquired artificially by adding intricate auxiliaries to the fundamental power unit.

The Stutz is the first fine car to rely solely on the mature refinement of its basic design instead of multiplication of parts for its splendid versatility.

As a result, the Stutz, we believe, is more nearly 100% efficient throughout the entire range of motor car performance than any one car built today.

Its elements are the sort that can be acquired only as the result of inherent perfection of design.

THE STORY of an UNLOVED WIFE AS TOLD TO GRACE PHELPS

THE ORCHID WORRIES DORIS.
As I stood there, staring at the table from which the orchid had vanished, my bedroom door opened and Alec came out. I looked at him speechless, my amazement at the disappearance of his gift paling before this new situation. What had he been doing in my bedroom? Then with a sudden remembrance of what had happened in this very hotel sitting room only twenty-four hours before, realized that he had a right to go into my bedroom if he chose. This man, this stranger almost was my husband!

Alec gave a swift glance at Ted's roses, which now hung wilted and listless at my belt, and then looked at me. Sensations were crowding in upon me until I could not distinguish which emotion was uppermost. He held my gaze for a moment seemed like a very long time. I could not read his expression nor fathom his meaning. Then he spoke and his words were like the shock of a cold water shower. "Did you hear a good time?"

He felt along the edge of the table until my hand came in contact with a chair that leaned against it. Still speechless and staring, I sank into the chair.

"Yes-yes," I managed to stammer out finally. Then almost feverishly I told him where we had been and what we had eaten and all about the girl who had waited on us, and how I had meant to return before he arrived, just as if I had been a small girl confessing a fault.

My tale he said briefly: "Better get ready for dinner now."
Like a whipped puppy I slunk into my bedroom. What had become of that orchid? Had Sue come in and taken it away? Or had Alec seen that I had scorned his gift and thrown it out himself? What a fool I had been to wear Ted's roses! Even if Alec had meant me to remember I was married, the orchid was beautiful and I should have worn it. Besides, I reflected miserably, how did I know that he had sent it to me for that reason? He might not have meant anything at all.

Too late I realized that I had not worn Alec's flower because he had sent Ted to amuse me instead of coming himself. It had been nothing but a fit on my part! How Alec must hate me!

And I? How did I feel toward him? I stood in the middle of the room, startled at the thought. Surely I was not falling in love with my husband? An impatient knock brought me back to earth, and again I was a child school girl.

"Very well," I called. "I'll be ready in a moment."
Hurriedly I finished dressing and went back to the sitting room. If I had been afraid that Alec would make some reference to the orchid, I was mistaken. As far as he was concerned, the episode was closed.

"We are dining with Mrs. Janderwood tonight," he said. "She is a good friend of mine and I have asked her to take you in charge. You will find her a very charming, cultured woman."

A Philadelphia clergyman is the father of a son whose habits of punctuality are a sore trial. Nevertheless, the youth's ready tongue is a source of secret delight to the parent.

Once the young man appeared at Sunday breakfast twenty minutes after the appointed time.

"Son," said the minister, reproachfully, as he held his watch so that the youth might see its accusing face, "do you think this is right? Do you honestly think it is right?"

"Well, father," returned the young man, regretfully, "I wish it were about twenty minutes faster, but as you ask me to say honestly, I am afraid it's just about right."

Little Louise was lost on the street and was brought into the police station. The officers tried in every way to learn her name. Finally one of the officers said: "What name does your mother call your father?"

"Why," said Louise, very icily, "she don't call him any name; she likes him."

Toasting marshmallows in front of a fireplace is a great diversion, but popping corn and then candy coating it is a newer way to entertain a crowd of young folks in the evening. It is being popularized everywhere. No one needs instructions for popping corn, but here is the way to make the candy coating.

Pop-Corn Balls
Boil one cupful brown sugar, one cupful molasses and one-half cupful water to the hard boil stage then add two tablespoonfuls butter or butter substitute. Boil to the crack stage, add a little soda and pour over freshly popped corn in a bowl. Stir until the syrup is evenly distributed over the corn, but be careful not to break the grains. Dip the hands in water and form the pop-corn into balls.

to prepare a sumptuous meal, hoping that the food will tempt the ghost to leave the body of the man

COUNTY LEAGUE TO OPEN, HAS 5 TEAMS

Kipton and Wellington
Drop Out and Lorain
Public Service Nine
Is Admitted

The Lorain County Base Ball League will open their season Saturday afternoon with a number of games.

LaGrange will play the Western Automatics at Cascade park at 2:30.

Both teams have been in active practice and a good contest is predicted. The Cascade grounds have been given good attention and are said to be in better shape than last year.

The Court House Rats will go to Oberlin. The Rats have re-organized, and are confident they are due for another good season.

The Public Service team, of Lorain, will be idle for lack of a date.

Kipton and Wellington will not be members of the league this year.

RUMORS THAT PEGGY HAS EYE ON HIM ISN'T WORRYING CHAMPION DEMPSEY

Jack Dempsey, left, playing a round of clock golf with Joe Beckett, English heavy, in London.

When Champion Jack Dempsey recently doubled back on his touring tracks in Europe and rushed to Paris from Berlin, Dame Rumor said that his return was caused by a request from Peggy Hopkins, deep in grief over the death of one of her admirers. "I didn't receive a message from Peggy begging me to return," says Jack gallantly, "but if I had received such a message, who knows but I might have come. Peggy is a mighty pretty girl. The photo above was taken while Dempsey and Joe Beckett, English heavy who once hoped to meet Jack, were guests of Douglas Stuart in London.

Tagging The Bases

Ken Williams, the new slugger, rushed a couple again yesterday, getting a triple and a home run, his tenth of the season, yet the Browns lost to the Tigers.

The Dodgers didn't play yesterday, but just for the sake of starting something, they cut the halts on Sam Crane and George Whitted, a pair of veterans. Sam goes to Seattle of the Pacific coast league and George to Kansas City of the American association.

Duster Mails threatened with disaster in the ninth inning, pulled himself together and fanned the dangerous Hooper for the final out with two on, the Indians thereby winning their second straight from the White Sox.

After a great uphill battle, the Cardinals pulled out an 8 to 7 victory over the Reds with most of the scoring being confined to the final inning.

TENDLER AND DUNDEE CLASH THIS EVENING

NEW YORK, May 5—One of the most important lightweights bouts of the year will be decided here tonight when Lew Tendler and Johnny Dundee, leading contenders for Benny Leonard's title, meet in a 15 round bout at Madison Square Garden. It will be a bout between a speedy man and a puncher, with the chances favoring the former unless Tendler can score a knockout.

This, however, has only been accomplished once during Dundee's career. Willie Jackson turning the trick in Philadelphia some years ago. Since then, Dundee has gone on taking on all comers and right now is fighting better than ever.

Kilbane Willing To Meet Pepper

CLEVELAND, May 5—"I'm ready to fight Pepper Martin any time and any place," said John Patrick Kilbane, featherweight champion of the world, to the International News Service, upon his return from New York this morning.

"I had a four hour conference with Martin's manager in New York. Terms were practically agreed upon for a match, but conditions must be suitable. I expect to hear him from within the next two weeks."

Kilbane said that Martin, whose work he watched from the ring-side in New York, when he knocked out Babe Herman of California, looked like the best featherweight he has seen in action for some time.
